Profile / About Me

A passionate Computer Science student with a strong foundation in programming, problem-solving, and full-stack development. Experienced in building mobile and web apps using Flutter and ASP.NET Core. Quick learner, team player, and eager to contribute to real-world software projects.

Education

BS Computer Science (BSCS)

Arid Agriculture University

2022 - 2026 (Final Year)

CGPA: 3.85 / 4.00

Skills

Programming & Development:

Languages: C++, Dart, C#, Python

Mobile: Flutter, Firebase

Web: HTML, CSS, JavaScript, ASP.NET Core

Database: SQLite, MySQL, SQL Server

Tools: Git, GitHub, VS Code, Android Studio, Rest API

Soft Skills:

Problem Solving, Communication, Team Collaboration, Time Management

Projects

1. Pizza Ordering API (ASP.NET Core + EF Core): Developed a RESTful Web API with SQLite using code-first approach. Supports CRUD operations, integrated Swagger for testing.
2. Personal Finance App (Flutter + Firebase): A cross-platform mobile app to manage expenses, with Google Sign-in and real-time database.
3. Weather App (Flutter + OpenWeather API): Displays current weather by city using REST API. Used FutureBuilder for data loading and responsive design.
4. AI Chatbot (Flutter + Firebase): Chatbot app built using Flutter and Firebase with real-time interaction.
